

## Hudson Light & Power Department

### **Commercial & Industrial Lighting and Energy Audits**

**Incentive type:** Utility Rebate Program

**Applicable Sector:** Commercial and Industrial (C&I)

**Incentive Amount:** up to 50% of the cost of audit

**Maximum Incentive:** per customer, per 12-months period

Group 1 – Municipal accounts (all sizes) - \$7,500 per town

Group 2 – Small C&I (less than 100 kW AMD) - \$1,500

Group 3 – Medium C&I (100 – 500 kW AMD) - \$2,000

Group 4 – Large C&I (greater than 500 kW AMD) - \$4,000

*(AMD – Average Monthly Peak Demand during the preceding 12-months period)*

**Program Budget:** Limited and capped

**Restrictions:** Only HLPD customers in good standing qualify, subject to applicable restrictions in the HLPD Rate Schedules and prior agreements. Good standing will be determined at the time of application and is defined as no more than one unpaid balance at the end of the billing period and before the next bill is issued for the prior 24 consecutive months. Home based businesses qualify for residential audit only.

#### **Summary:**

HLPD offers business customers financial incentive to conduct a facility Lighting Audit or Energy Audit. The Audits are conducted by HLPD's contractor. Cost of the audit is based on facility size (sq. feet). Audit reports will include analysis of baseline energy usage, identification of energy efficiency opportunities, projected energy savings, measure installation costs, and simple project economics. The incentive will be paid to the contractor.

Energy Audit will Include: Site Visit, Utility Bill Evaluations, Data Loggers (HVAC) if needed, Site Assessment (Lighting, HVAC, Compressed Air etc), Report Preparation and Presentation of Findings.

Once the audit has been conducted and the efficiency opportunities identified, additional incentives are available for the installation of efficiency improvements.
