Summer Savings!

Hudson Light plans to make it a little easier for you to go green this summer with our \$10 paperless incentive. Plus, the savings we realize will go right back to you!

How does it work? Qualifying customers who opt to go paperless during June, July and August will receive a \$10 green credit on their bill. Customers who sign up at any time will receive a monthly credit reflecting the savings to the Department - currently 34 cents. Why enroll?

Save Time! Electronic files are quick and easy to search and take no room to store. A bonus - you will receive a pdf copy of your actual bill, not just an e-mail reminder.

Reduce Waste! No trees will be needed to create envelopes, bills and newsletters. You will get them all in your email.

Save Money! Not only will we credit your account \$10, it costs less to email you information than to use traditional mailing methods. As a not-for-profit department of the Town of Hudson, we pass all savings directly to you. When we save, you save!

The \$10 rebate is limited to one per customer. When a customer has multiple accounts, the rebate will be credited to one account. Qualifying rebate customers must have no more than one past due balance in the past 24 months. Existing E-Bill customers accounts will be reviewed upon request. The monthly credit will be applied to all E-Bill customer accounts and is not retroactive. E-Billing must be maintained for 12 months.

Unfortunately, we cannot offer this incentive forever. So call the Main Office now at 978-568-8736 or email info@hudsonlight.com. Don't miss out!

Visit our store!

Are you thinking about reducing your carbon footprint? Do you want to save energy and money? Do you wish you had a light bulb that will last longer? Hudson Light can help residential customers with its new online store at www.energyfederation.org/hudson/. Residents can also access the store from our website www.hudsonlight.com.

We have joined forces with the Energy Federation to offer our residential customers an array of compact fluorescent (CFLs) and light-emitting diode (LED) lights. Hudson Light will subsidize the light cost by up to 50% of the pre-incentive price.

Why buy an Energy Star light bulb? They use about 75% less energy than traditional bulbs and last 10-25 times longer. They have undergone extensive independent testing to assure that they perform as promised. And we have chipped in to lower the cost.

The program is funded through the monthly Residential Conservation Charge and is limited to residential customers served by Hudson Light.

Stop by our online residential store - it is just one of the ways that we are here to serve you!
