### 1. Public Power...

Our celebration kicks off Oct. 1st.

### 2. Safety First ...

Annual School Safety program scheduled.

### 3. RCS ...

Residential Conservation Charge set.

## Get Ready to celebrate Public Power next month!

October 2nd to 8th is Public Power week! We will launch our celebration of Public Power on Saturday, October 1st, with an Open House at our Cherry Street Generating Station and more, from noon to 4 p.m. Here is what is planned so far:

- ☺ Tours of the Generating Station. Kids accompanied by parents are welcome!
- ☺ Truck zoo. We will have a couple of trucks on hand to show kids (and parents) how the booms work and our safety apparatus.
- ☺ Free hot dogs and ice cream for everyone!
- ☺ Poster contest winners announced. The posters of third graders who participated in our poster contest will be on display.
- ☺ Conservation information. Learn about our free home energy audits and rebate programs. We will have the pro's on hand to answer your questions.
- ☺ Bring your camera and take a picture of your kids posing as a line worker.

*Parents bring your cameras to our Open House and take a picture of your child posing as a Line Worker with our special photo op display!*

*We plan to celebrate Public Power all month!*

*Stay tuned for more exciting news! Hope to see you at our Open House!*

## Safety courses scheduled

Our annual electric safety program for local students will be held this month in Hudson and Stow.

Children are often surprised to discover that electricity always seeks the easiest path to the ground and that the human body, comprised of so much water, often makes a perfect route for electricity to travel.

Using visual props and a video, we try to give students the information they need to live safely in today's electronic world. The program also includes elements dealing with energy conservation.

## Conservation charge set

The Residential Conservation Service (RCS) charge for 2016-17 has been set at 24 cents per month. The charge supports our Residential Conservation Programs, which include appliance rebates, a free energy hotline, free home energy audits and energy efficient light bulbs. The charge is set annually.

### GREEN CORNER

TOTAL ENERGY SUPPLIED:	121,330,624 kWh
GREENHOUSE GAS-FREE ENERGY SUPPLIED:	109,295,294 kWh or 90%
(1/1/2016 - 6/30/2016)
